ArPePe began in 1984 when Arturo Pelizzatti Perego, bolstered by the experience gained in his father's and grandfather's firm, decided to create his own winery and label. His aim was to realize the full potential of the unique Valtellina terroir. To do this he reinstated the oldest regional winemaking traditions and focused on producing long-aging Nebbiolo wines.

Today, Isabella, Emanuele and Guido continue their father's work as the fifth generation of winemakers and growers. In just a few years, thanks to careful technological innovations and the choice of a young and passionate team, Arturo's dream has come true: his rare wines are a true expression of terroir and a major point of reference on the national and international wine scene.
