**Graci** is located in Passopisciaro, on the north side of Mount Etna, in Sicily. The farms and winery of Graci follow winemaking traditions that go back more than a thousand years. Their vineyards are located in the heart of the Alcantara Valley at an altitude of between 600 and 1,000 meters above sea level.

Graci is Certified Organic and only cultivates the native vines of Etna, respecting the territory, tradition and peculiarities of each vintage. They limit intervention in the vineyard and in the cellar, because only by following and respecting the natural expression of the territory can a unique wine be made. All of their effort is aimed at supporting the personality of the vineyard, keeping intact the diversity and character of each vintage. "We love and want to make wines that focus on truth and expressive authenticity." – Alberto Graci.
