I Cacciagalli is a burgeoning estate in the northern region of Caserta, located at the foot of the spectacular, inactive volcano of Roccamonfina, in the land the ancient Romans called Campania Felix, a particularly fertile terrain which continues to yield exceptional products to this day. Diana Iannaccone is a young agronomist who decided to follow non-invasive methods of cultivation to respect the land of her family's estate and Mario Basco is a passionate wine connoisseur, not only for taste and aroma but also for the wine's individual story, the story of the men and women and the territorial peculiarities that a good wine can recall. Uniting Diana and Mario is not only their love for each other but also the love for their land; more than a business, theirs is a life's journey undertaken to share a common passion for wine and for their land, to live their lives fully present, where life happens, among those very vines and fields.
