Winemaking Notes

Harvest: Late September.

Vinification: The Lacrima grapes are soft pressed directly to limit colour extraction. Part of the product comes from the dripping of the press, while the rest of the must is sent to fermentation after contact with the skins for about 12 hours. Fermentation takes place at a controlled temperature in steel tanks, with a short final period on the fine lees.

Aging: 3-months in the bottle.

Production: 3,000 bottles.

Cantina Luigi Giusti has roots that go back to 1903, when Filippo Giusti returned to Italy from the United States and bought a piece of property near his hometown. His family grew along with a passion for the land and, since the 1930s, for the cultivation of the vine. In the 1950s, Filippo's son Luigi and daughter-in-law Maria, acquired the historic cellar of the Cantina Castelferretti. The winery began a long agricultural project focusing on the cultivation of the Lacrima varietal. While the Castelferretti cellar is still used for the sale and aging of bottled wines, in 1997 Luigi's son Piergiovanni Giusti, with the help of his wife Elena, bought a new cellar in Montignano, within the Lacrima di Morro d'Alba DOC boundaries. Today he continues his parent's vision – to produce quality wines from the native grape of the Marche which are a distinct expression of the land and the indigenous Lacrima di Morro d'Alba.
